## What to Wear to Your Christmas 2025 Photo Session

This session will feature only one setup. I've attached photos below so you can get an idea of how the setup will look.

Here are some wardrobe tips to help you look stylish:

**Basics:** Wear colors that flatter your skin and hair. Also, choose colors that coordinate with your family, but avoid being too matchy.

**Colors:** Consider the setup when choosing your colors. A good trick is to think about the tones in the background and ensure your clothing complements them.

**Body Type:** Dress for your body type. Flowy yet fitted fabrics look fantastic on everyone. Don't be afraid to accentuate your shape it works for men too! When buying outfits for children, always choose clothes that fit them now, rather than something they will grow into. Confidence comes from wearing clothes that fit well and make you feel great!

**Shoes:** Your shoes will be visible in the formal or casual setup, so make sure they match your outfit.

**Comfort:** Never wear something uncomfortable. If you love maxi dresses, wear one! If your husband prefers a button-up shirt with the sleeves rolled up instead of a blazer, he'll look great in his photos.

**Stylish:** Dress a little extra special! I personally love jeggings and sweaters—they're comfortable. But if I'm spending time, energy, and money on a photo session for my family, I want to make sure everyone looks their best. Think about what makes your family stand out, from clothing to accessories like jewelry and shoes, and make sure everything is well-coordinated.
